Education

2021- **Ph.D. Electrical & Computer Engineering, Carnegie Mellon University, Pittsburgh, United States.**

Advisor: Prof. Swarun Kumar

2017-2021 **B.Eng. Information Engineering, Shanghai Jiao Tong University, Shanghai, China.**
IEEE Honors Class & Zhiyuan Honors Program

Research Interest

My current research mainly focuses on *wireless and mobile systems*. Specifically, I am investigating how to develop *sensing, communication and IoT systems* for better productivity, mainly using the 2.4GHz ISM band and millimeter-wave band. My goal of research is to develop effective, efficient and economic wireless systems for different purposes, under different scenarios.

Experience

2021- **Graduate Research Assistant, Carnegie Mellon University, Pittsburgh, United States.**

◦ Advisor: Prof. Swarun Kumar.

◦ Topic: Efficient beamforming for IoT device.

2020-2021 **Undergraduate Research Intern, The University of Texas at Austin, Austin, United States.**

◦ Advisor: Prof. Lili Qiu.

◦ Topic: IEEE 802.11ad/ay channel estimation and beamforming.

2019-2021 **Undergraduate Research Assistant, Shanghai Jiao Tong University, Shanghai, China.**

◦ Advisor: Prof. Haiming Jin.

◦ Topic 1: Optimization for urban traffic flows.

◦ Topic 2: Worker selection for crowdsourcing.

◦ Topic 3: WiFi sensing.
